

# QUALITY EYE CARE DEFENSE FUND

Help Texas Ophthalmological Association protect patients from a lowered standard of care.

We do not seek to expend time and money needlessly on lobbying efforts. That said, the TOA will not sit idly by while organized optometry seeks authority to treat patients with surgical and medical modalities in which they are not trained and which require a comprehensive medical education to fully manage.

Contributions to the Quality Eye Care Defense Fund are kept confidential and go directly to fund TOA lobbying efforts.

Your assistance in this effort is greatly appreciated, *but as part of our effort to keep your contribution completely confidential, you will not receive additional communications from us regarding your contribution with the exception of an email receipt from our credit card processing company.*

Money given to the QEDF may come from any source, including corporations. Because your contribution will go 100% towards TOA's lobbying efforts, the contribution is not a deductible donation.
